MEMORANDUM FOR: Assistant to the DCI (Public Affairs)

FROM :
Chief, Pictorial Services Branch, OCR

SUBJECT : Rona Barrett's Comments About Hollywood Films on
"Good Morning America", 19 September 1977

Herb:

1. I want to make you aware of facts concerning our motion picture film holdings that vary from Admiral Turner's response to Rona Barrett's question on "Good Morning America". You will recall that Rona described Hollywood films about spies and spying that had been produced over the years, naming several of the outstanding titles. The Admiral's response to a question by Ms. Barrett about the films was: "Rona, Hollywood does a great job of turning intelligence into entertainment, but I don't think I could use the films you've been talking about as training films for our agents."
