Report Description

Data Bridge Market Research analyses that the automotive logistics market would exhibit a CAGR of 7.4% for the forecast period of 2022 to 2029. Automotive logistics is a type of the seamless transportation service and warehousing facilities for the finished vehicles, its materials and spare parts from manufacturer to provider or end-user. The collaboration and partnerships among the automobile manufacturers and logistics provider is increasing, which is fueling the growth of the automotive logistics market. Increased production of automobiles, high demand for plug-in vehicles or electric vehicles and rising population are also accelerating automotive logistics market.
